Señor

Jefe del Observatorio Central Meteorológico

Parque del Retiro

Apartado n.º 285.

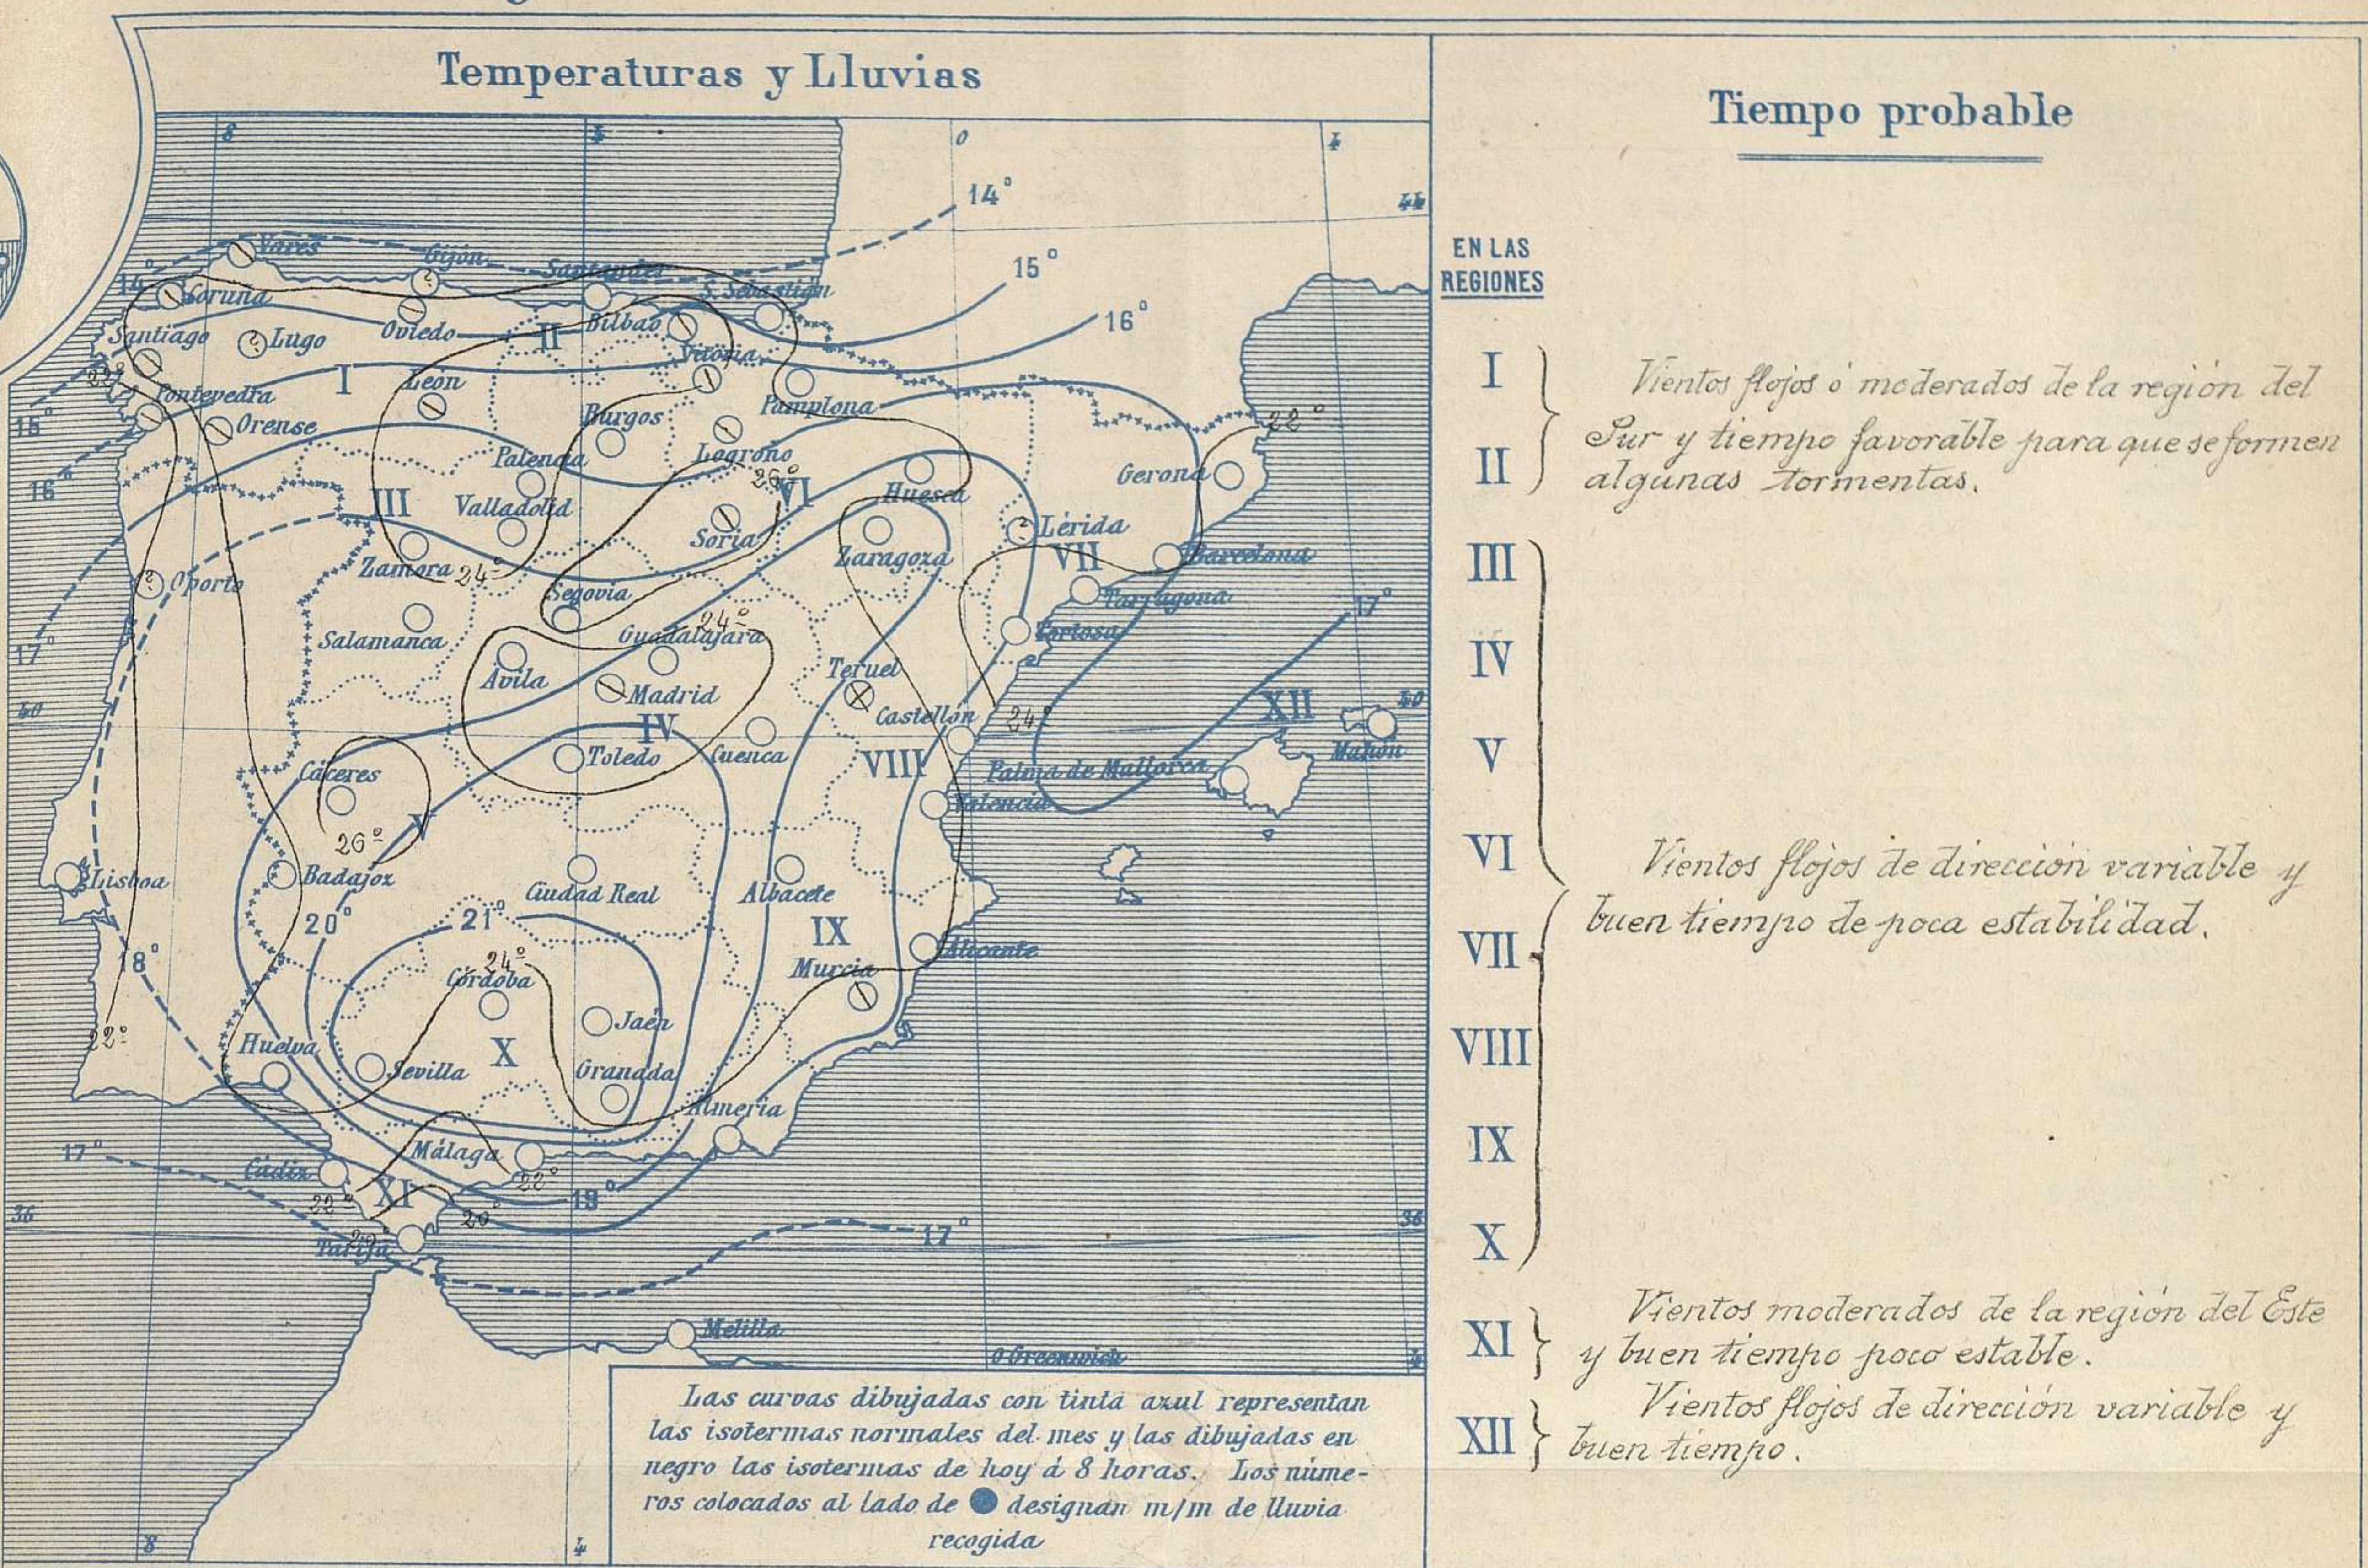

Madrid. (ESPAÑA)

Estado general

Va debilitándose poco a poco el anticiclón de España (769 m) pero aun se mantiene el buen tiempo por todas partes, aunque el cielo no está tan limpio de nubes como ayer.

Los vientos generalmente soplan de dirección variable con poca fuerza y la temperatura aumenta con rapidez.
La máxima de ayer fue de 38 grados en Badajoz y la mínima de hoy ha sido de 11 grados en Teruel.

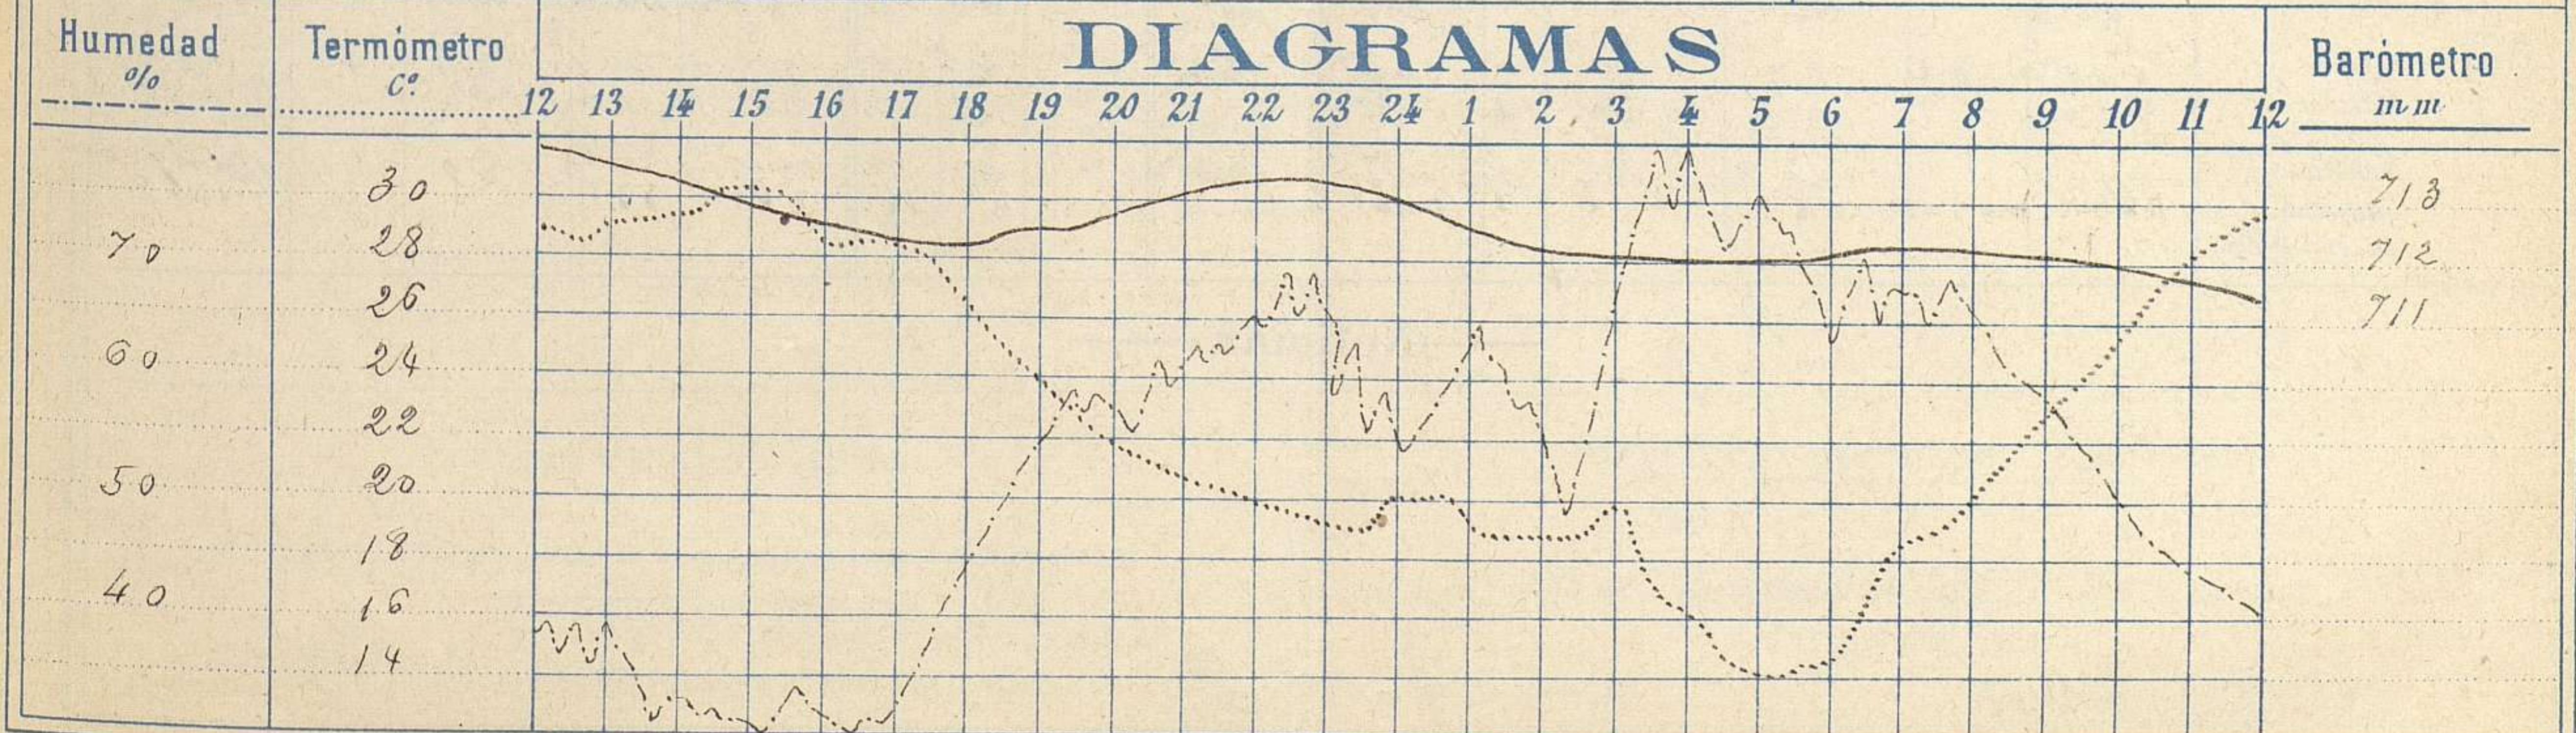

Observaciones de Madrid entre 12^h del dia 9 y 12^h del dia 10
