

EL PARTIDO AUTONOMISTA.

No ha podido, en manera alguna, sorprendernos la actitud patriótica y levantada del Partido Autonomista...

Pero hemos de confesar que nunca como ahora el mencionado partido ha sido tan explícito en la manifestación de su firme intento de mantener perennemente la soberanía de la Patria...

Identificado el partido autonomista, según decimos del manifiesto, con la levandada y a su tiempo enérgica política del ilustre General O'Leary...

No tenemos la intención de reproducir, por segunda vez, el notable manifiesto autonomista, cuyo texto es realmente indivisible por tener la unidad fuerte y compacta de todo plan político...

No menos explícito que el anterior párrafo son los que consagra el manifiesto a condenar el movimiento insurreccional, cuyos caracteres traza en esta forma:

En esas condenas del separatismo no sólo toma muy en cuenta el manifiesto la injustificación de los móviles, si que también las temerosas perspectivas que sólo pueden ofrecer a sus contrerarios...

En la Directiva del partido autonomista, cumpliendo uno de los acuerdos que la Junta Directiva del partido autonomista tomó en su última sesión...

El presidente de dicho partido, señor D. José María Gálvez, felicitó al general Calleja en un notable y elocuente discurso por la justicia con que ha ejercido el mando en esta Isla...

Después pasó una comisión de la Directiva a felicitar en su despacho al digno e ilustrado secretario del Gobierno general, señor de Antonio.

Por una insinuación tan expresa; pero no accede a los ruegos de Sir Harry sino dispuso de un diálogo muy ingenioso.

Terminada la representación, los invitados fueron obsequiados con espléndido baile en el salón de baile de la casa de los señores de Calleja...

En el último local, destinado en ciertas ocasiones al teatro, se celebró un precioso escenario de tanto gusto como valor.
