De la borrasca que estos días estaba en el Atlántico por el S.W. de Irlanda se ha destacado un mínimo que se halla hoy sobre las costas de Galicia donde ha bajado el barómetro 8^m. con vientos del 3^{er} cuadrante y tendencia a mal tiempo. En las Ovejas hay otra borrasca que produce lluvias y vientos frescos del N. En el N.E. de África, entre las Baleares y Argel hay un mínimo. El tiempo es bueno en toda la Península pero los vientos en algunas localidades adquieren violencia. Las presiones más elevadas residen en el E. de Europa. El calor es moderado: Córdoba 32°. Badajoz 31°. Valladolid y Sevilla 30°.

Tiempo probable

EN EL N. vientos bonancibles a frescos del S. y tiempo incierto y lluvioso.
 " " N.W. " frescos y duros del S. y lluvias.
 " " CENTRO como para el N.
 " " S. " " " " "
 " " E. vientos bonancibles del S. y tiempo incierto.
 " " N.E. como para el N.
