

ESTADO GENERAL

La borrasca indicada ayer en el Atlántico, sobre las costas de Galicia, se halla hoy en la bahía de Vizcaya, al S. de Brest. El tiempo es de lluvias en casi toda la Península y de nieves en las regiones elevadas. La baja barométrica es general y de importancia: los vientos soplan por lo común del 4º cuadrante. Las presiones aumentan en el Atlántico resolviendo el anticiclón en las inmediaciones de las Azores. Las temperaturas son bajas. Faltan muchos telegramas.

Tiempo probable

EN EL N	vientos bonancibles a frescos de la región del S. y lluvias.
NW	" " " " " " W y lluvias.
CENTRO	" " variables, lluvias y nieves y bajas temperaturas.
S	" " a frescos del 3º cuadrante y lluvias. Fríos.
E	" " variables, lluvias y bajas temperaturas.
NE	como para el Centro.

Observaciones de la mañana.
