

Al S de Irlanda hay una Depresion con lluvia y viento del E pero la presion permanece invariable. En el Mediterraneo sobre la costa de Mallorca existe un area reducida de presiones debiles que causan tiempo de lluvias en todo el litoral de Levante. Tambien en Galicia hace mal tiempo de lluvias y mar gruesa. Los vientos en toda la Peninsula son flojos y bonancibles de direcciones muy variable. Las presiones mas elevadas residen por el SW de las Azores. La temperatura maxima de ayer fue de 25° en Zaragoza y la minima de hoy ha sido de 0° en Orense.

Tiempo probable.
