

La borrasca del Mediterraneo se ha corrido hacia Sicilia donde ha bajado el barómetro 1^{mm}. En las Baleares y region de Levante se va restableciendo el buen tiempo, pero todavia se registran algunas lluvias: tambien llueve en las Provincias. Por lo general el tiempo es bueno en la Peninsula, aunque algo nebuloso. Los vientos son bonancibles del 4^o cuadrante. Por el mar del N. pasa una depression que pudiera ocasionar la formacion de un secundario en el golfo de Leon. Las presiones mas elevadas residen en el Atlantico al N. de las Azores. La temperatura maxima fue ayer de 14^o en Pontevedra, Orense, Badajoz y Huelva. La minima de hoy de 7^o bajo cero en Segovia

Tiempo probable.
