

# INSTITUTO CENTRAL METEOROLÓGICO

Año XVII

Boletín del Martes 18 de Mayo de 1909

Nº 138

En el Atlántico al W de la costa de Canarias hay un area de bajas presiones relativas que producen vientos del E. moderados en el Estrecho y costas adyacentes con buen tiempo. El tiempo es bueno en toda la Península menos en Cantabria donde llueve un poco, y de vientos bonancibles en general del S y S. En las Azores baja el barómetro. Las presiones mas elevadas residen en el Norte de Francia. La temperatura máxima ayer fue de 28° en Huelva, y la mínima de hoy ha sido de 6° en Santiago, Segovia y Teruel.

**Tiempo probable.**

EN EL N. vientos bonancibles del S. cuadrante y tiempo incierto

N. W. " " " " " " " "

CENTRO " flojos y bonancibles del S. cuadrante y buen tiempo

S. " frescas de la region del E. y buen tiempo

E. " flojos del S. cuadrante y buen tiempo

N. E. " " " " " " " "
