

ENGLISH PAGES OF THE DIARIO DE LA MARINA Havana, September 9, 1907

CREDIT TO GOVERNOR

THE CUBAN REPUBLIC

We print elsewhere the report of a meeting held in Santa Clara by the "National Liberal Party" that is to say, General Aleman's following. The meeting was strongly in favor of the "reestablishment" of the republic.

VEGETARIANISM

All that we have read about the benefits man derives from a vegetarian diet refers to countries where the climate is either cold or temperate. We believe the reasons in favor of vegetarianism are two fold in a warm climate like Cuba's and we approve, therefore, of the newly established vegetarian society and its propaganda on the lines laid down in Pythagoras' golden rules.
