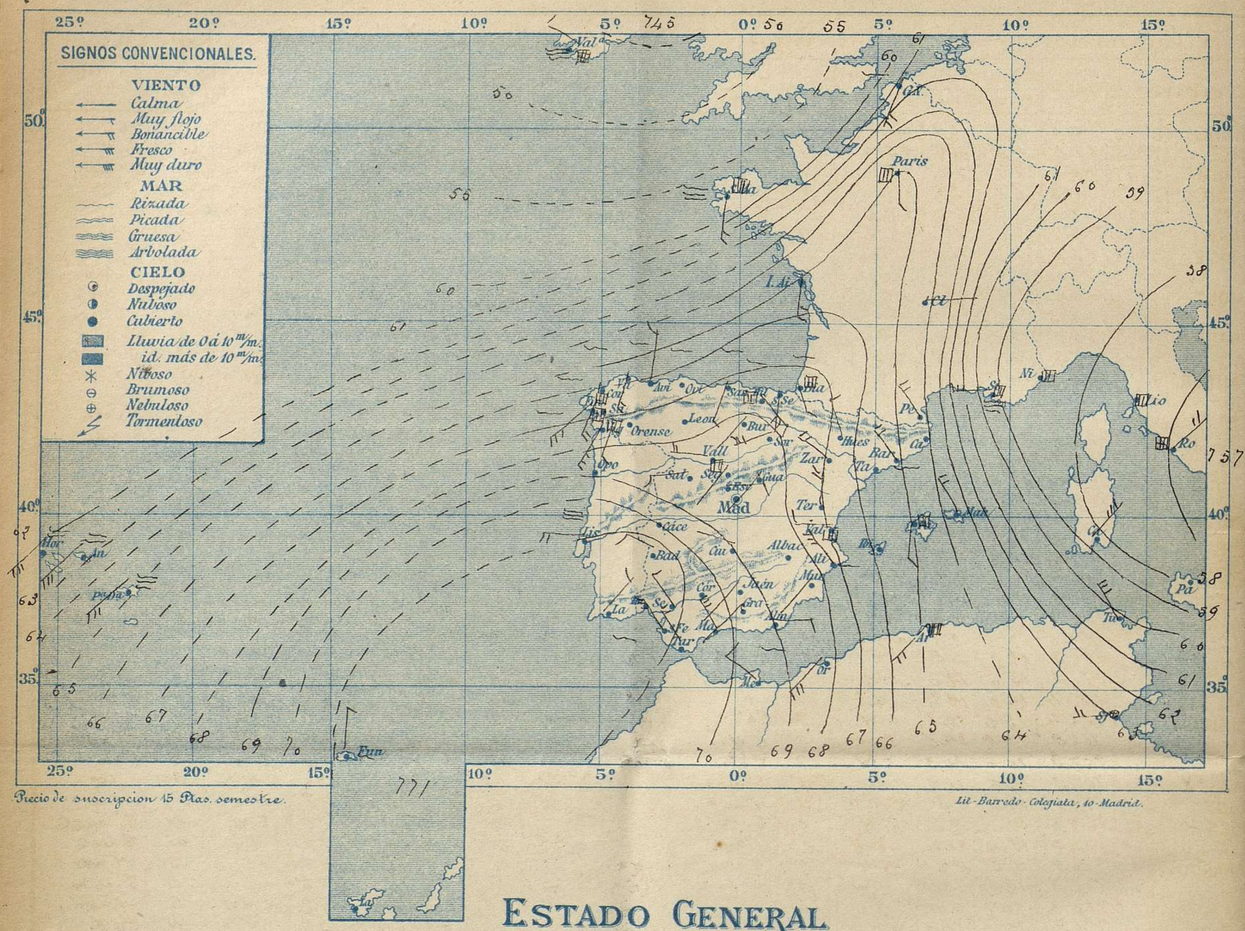
# INSTITUTO CENTRAL METEOROLÓGICO

Año XI — Boletin del Martes 17 de Marzo de 1903. — Nº 76



Precio de suscripcion 15 Ptas. semestre.

## ESTADO GENERAL

La borrasca de Irlanda ha caminado hacia el E. y se halla hoy por Escocia, habiéndose ahondado 8 mm mas. Continuan las lluvias en las islas Británicas y en Francia. El tiempo mejora en Andalucía, pero sigue lloviendo en Cantábria, Galicia, Levante y las Baleares; en Galicia los vientos son frescos del 3er cuadrante. En el Atlántico, hacia el N.W. de las Azores avanza una borrasca que ha hecho bajar el barómetro en el archipiélago 7 mm con vientos frescos del 3er cuadrante. Las presiones mas elevadas se extienden de Extremadura á Andalucía. Las temperaturas son moderadas.

## Tiempo probable

EN EL N. vientos bonancibles á frescos del W. y lluvias.
" " N.W. " frescos y muy frescos del 3er cuadrante y lluvias.
" " CENTRO " bonancibles á frescos del 3er cuadrante y tiempo inseguro.
" " S. " " del W y bueno.
" " E. " " " 4º cuadrante y tiempo algo inseguro.
" " N.E. " " " " " " " " "
