Luz Barrado Zaragoza, O. Madrid.

El mínimo que ayer se encontraba al W. de Irlanda ha caminado hacia el E. y hoy se halla en el mar del N. causando algunas lluvias en Francia. El de las islas Canarias se ha removido hacia el N.E. bajando su nivel 1^{mm}. Sopla levante fresco y muy fresco en el Estrecho y el saco de Cádiz. En la Península el tiempo es bueno, y muy caluroso en Andalucía. Las presiones mar elevadas parten del Atlántico y cubren la bahía de Vizcaya, la costa cantábrica y llegan atravesando el Meridiano de Francia hasta las Baleares.
