

ESTADO GENERAL.

Faltan muchos telegramas por lo cual no se puede formar juicio exacto de la situación atmosférica de hoy. Sobre el Mediterraneo se extiende un area de presiones débiles y otra existe por el mar del Norte. El tiempo es bueno en todas partes con vientos bonancibles, de dirección variable y temperatura suave; la máxima de ayer fue de 31° en Málaga y Murcia; la mínima de hoy ha sido de 4° en Segovia y Avila.

Las mayores presiones residen sobre el Atlantico al W. de Irlanda.

Tiempo probable.

EN EL N. Vientos bonancibles de dirección variable y tiempo lluvioso

N. W. Id id id id id

CENTRO Id id de dirección variable y tiempo incierto

S. Id id del 4º cuadrante y tjera tendencia tormentosa.

E. Id id id id y tiempo tormentoso.
