- 2.º Asunto señores Gerbolés sobre pago de obras.

Lo que se hace público en este «Boletín Oficial» para general conocimiento.

Valladolid, 23 de Noviembre de 1931. — El Presidente, *MANUEL GIL BAÑOS*.

STATE OF TEXAS

COMMISSION ON BIRTH CONTROL

REPORT OF THE COMMISSION

COMMISSION REPORT

The Commission on Birth Control was organized by the Governor of Texas in 1951. Its purpose was to study the problem of population growth and to recommend effective measures to control it. The Commission held numerous public hearings and received many suggestions from the people of Texas. It also conducted extensive research into the various methods of birth control and the social and economic factors influencing population growth.

The Commission believes that the most effective way to control population growth is through the use of birth control. It recommends that the State of Texas should take steps to make birth control available to all people who desire it. This includes providing information, education, and access to birth control methods.
